CRASH REPLACEMENT

Shit happens! Crashes and other crazy things can happen, and suddenly your SCIU is defective. So in case you damage your SCIU frame, we offer you a crash replacement for a period of 6 years.

Our crash replacement is an additional support and service, should life hit you a little harder than usual. We will assess whether you are eligible for the Crash Replacement Program. Damage caused intentionally is excluded from our program.

What do you have to do to get a crash replacement?

Option 1: You have bought directly from SCIU BIKES.

Please send us good quality photos and briefly describe what happened. We need the original invoice in any case, but you don't have to be the first owner! If it is a crash-replacement, we will send you an offer. So we can decide if you get only a part or the whole frame replaced. The damaged frame has to be sent back to us. If we don't have availability or your frame is an oldtimer, then we will offer you a suitable alternative. This concerns model or color.

Option 2: You have purchased from a SCIU dealer.

Please contact your dealer directly. He also needs good quality photos, a description of what happened and in any case the original invoice, even if you are not the first owner! Your dealer and SCIU will decide together if a crash replacement is possible. If yes, you will get a part or the whole frame replaced. The damaged frame must be returned to us. If we have no availability or your frame is a vintage, we will offer you a suitable alternative. This concerns model or color.
